| SN | Title                                                                                                                                          | Authors                                                                                                              | Page No. |
|----|------------------------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------|----------|
| 1  | Decision Tree and Automatic Linear Modeling Approaches to Predict Body Weight in Indigenous Sabi Sheep and Matebele Goat Females of Zimbabwe   | Never Assan, Michael Musasira, Edward Manda Mkokora, Abbegal Dube                                                    | 1-7      |
| 2  | Microcontroller ? Based Automatic Railway Crossing Control and Track Obstacle Monitoring System                                                | M.S.N.L.Narasimha Rao, S. Kumar Swamy, P. Hari Chandana                                                              | 8-13     |
| 3  | Modelling the Role of Absorptive Capacity in Foreign Direct Investment - Economic Growth Nexus: A Focus on South Africa?s Manufacturing Sector | Marius Ikpe, Irene U. Nwiboko, Sunday V. Agu                                                                         | 14-22    |
| 4  | AI-Powered Wristband for Accurate BAC Monitoring Using Smart Data Fusion                                                                       | Saihibb Kaura, Garima Joshi                                                                                          | 23-38    |
| 5  | Climate Change Impacts on Different Regions                                                                                                    | Pradeep Kumar Tiwari, Dr. Lalit Kumar Dubey, Shrikant Yadav                                                          | 39-43    |
| 6  | Fostering Innovation in Indian Education: The Impact and Challenges of Atal Tinkering Labs                                                     | Anjana Vyas                                                                                                          | 44-46    |
| 7  | Mathematical Modelling of The Dynamics of Poverty, Crime and Imprisonment                                                                      | Okuh Benjamin Ajokpaoghene, Omokri Peter Akweni, Akudo Nkpuruoma Ashinze                                             | 47-53    |
| 8  | The Effect of Interest Risk Volatility on The Financial Performance of Tier Iii Banks in Kenya                                                 | Dr. Tumaini Mwikamba, Martha Nyambura Mutugi, Dr. James Nyamu                                                        | 54-59    |
| 9  | Effectiveness of Vision Therapy for Binocular Single Vision Anomalies                                                                          | Md Kabil Uddin, Maulana Abul Kalam Azad                                                                              | 60-75    |
| 10 | Classification of Corn Leaf Diseases Using Convolutional Neural Network                                                                        | Estores, Ivan James G., Adrales, Lorelyn F., Agreda, Dale Anthony B., Provido, Olsen John Gabriel M., Wata, Dustin T | 76-85    |
| 11 | The Passwordless Future: Effectiveness and Adoption in Enterprise Security Systems                                                             | Sunita Parmar                                                                                                        | 86-92    |
| 12 | Green Finance and Sustainable Economic Growth: A Theoretical Analysis of India?s Key Sectors                                                   | Dr. Venkataramana Arangi                                                                                             | 93-94    |
| 13 | Sustainable Architecture in Civil Engineering: A Comprehensive Analysis of Design Strategies, Materials, and Environmental Performance         | Dr. Gautam Prakash, Shahrukh Jan, Rajan Kumar, Shambhu Nath Sharma                                                   | 95-106   |
| 14 | Comparative Evaluation of Selected Medicinal Plant Extracts on Health Biomarkers and Antimicrobial Activity in Broiler Chickens                | Halimatu Sadiya Abdullahi, Moses Zira Zaruwa, Ijeomah Ann Ukamaka, Chibuzo Carole Nweze                              | 107-112  |
| 15 | Brand Refresh, Service Quality and Customer Satisfaction in The Oil Industry in Kenya.                                                         | Dr. Viona Muleke Aluvale, Mercy Naliaka, Dr. Tumaini Mwikamba                                                        | 113-119  |
| 16 | Phytopharmaceuticals: An Emerging Field for India's Herbal Tradition                                                                           | Prof. Dr. Rupali H. Asawale, Prof. Pallavi B. Gaikwad                                                                | 120-133  |
| 17 | Uni Find: Lost and Found Objects Management System for Campus using AI & Cloud Services                                                        | Ruchika Wadbudhe, Vaishnavi Ganesh, Achal Patil, Aditya Meshram, Aman Sayyed, Aniket Hedau                           | 134-139  |
| 18 | The Impact of Influencer Marketing on Impulse Buying: The Role of Social Influence and Situational Factors in Online Shoppers                  | Dr R Pradeep Kumar Patnaik, Saripalli Ushasree, Peddineni Sushwarya, Paritala Sujitha, Gaddam Ishwarya               | 140-145  |

|----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------|----------|
| 36 | Emotion Recognition from Facial Expressions Using Convolutional Neural Networks                                                                                          | Anamika., Manoj Kumar, Jagdeep Singh, Sachin Kumar, Sharad Kumar, Vikas Sharma                                                                         | 258-265  |
| 37 | African Continental Free Trade Agreement (AfCFTA) and Supply Chain Issues in Africa: An Exploratory Review                                                               | Timothy Shirgba Aikor, Ejem Agwu Ejem, Nnenna Nwoko                                                                                                    | 266-282  |
| 38 | Collaboration and Employee Performance: The Mediating Role of Innovation among Public Sector Employees in East Kalimantan                                                | Ririn Octaviani, Irsan Tricahyadinata, Dwi Martiyanti                                                                                                  | 283-293  |
| 39 | From Support to Success: How Perceived Organizational Support Drives Change Readiness and Performance in Public Universities                                             | Maya Jailani., Dirga Lestari., Anisa Kusumawardani                                                                                                     | 294-301  |
| 40 | A Numerical and Analytical Framework for Estimating Water Pollution in A 3-D Aquatic Region Using Diffusion Model with Du Fort Frankel and Adomian Decomposition Methods | Tarjani Naik, Mukesh Patel, Rachna Patel                                                                                                               | 302-316  |
| 41 | CLUSROOF: Integrating Descriptive Analytics and K-Means Algorithm for Nishin Metal Corporation                                                                           | Princess Junail Antonio, Ariel Kyla Estives, Aleck Jovy Marcial, Eleonor Jane Villegas, Gabby C. Vargas, Ezekiel N. Borja                              | 317-324  |
| 42 | Digital Expertise and Stress Coping Skills as Predictors of Technological Adaptability in Secondary School Teachers                                                      | Jake Levinson R. Villarente, James L. Paglinawan, Welmarie P. Villarente                                                                               | 325-338  |
| 43 | Comprehensive Performance Evaluation of Phase Change Materials Using Multi-Attribute Decision Making Method: TOPSIS                                                      | Chol-Ryong Pak, Won-Chol Yang, Chol-Min Jong, Jin-Hyok Kim                                                                                             | 339-346  |
| 44 | Fourth Industrial Revolution and Youth Employment: Opportunities and Risks in Emerging African Economies                                                                 | Akomolehin F. Olugbenga, Oluwaremi J Bali, Aluko R. Oluwafemi, Chukwudi Ofoama                                                                         | 347-360  |
| 45 | Indinization and Indian Traditional Practices for Modern Sports Performance                                                                                              | Dr. Sanjeev S. Patil., Dr. Sanjay Kumar Prajapati                                                                                                      | 361-363  |
| 46 | Depression Detection by Facial Emotion Recognition Using Deep Neural Network                                                                                             | Amit Phadikar, Himadri Mandal                                                                                                                          | 364-369  |
| 47 | Career-Personal Life Equilibrium in Academia: The Remote Workplace and Married Women Faculty in Higher Education                                                         | Yogambal . N, Dr. P. Karthikeyan                                                                                                                       | 370-376  |
| 48 | Magnetohydrodynamic Unsteady Convective Heat and Mass Transfer along a Semi-Infinite Permeable Vertical Plate with Heat                                                  | Sindhu                                                                                                                                                 | 377-385  |
| 49 | Design and Development of a Radio-Controlled Aircraft and Concept of Electric Vertical Takeoff and Landing (eVTOL)                                                       | Gutti Siva Kumar., Jethwa Krushik Girish., Mr. Mayur Chavda., Ms. Apexa Purohit., Dr. Anil M. Bisen., Dr. Mayank Dev Singh., Dr. Jai Bahadur Balwanshi | 386-391  |
| 50 | Bridging Educational Gaps through the ARAL Program: Transformational Leadership and Social Constructivist Approaches to Learning Recovery                                | Charmaine S. Prosia, Maed, Ethel G. Velasco, Maed, Gladys S. Escarlos, Phd                                                                             | 392-395  |
| 51 | Design of Low-Power 16/17 Prescaler Using Powerpc Flip-Flops                                                                                                             | G. Vimala., F. Vincy Lloyd                                                                                                                             | 396-402  |
| 52 | Emotional Burnout, Digital Dependency, and their Impact on Pedagogical Practices among Basic Education Teachers                                                          | Charmaine S. Prosia, James L. Paglinawan, PhD                                                                                                          | 403-412  |
| 53 | Development and Organoleptic Evaluation of Value-Added Extruded Millet Puffs                                                                                             | Uttara Singh, Shruti Saini                                                                                                                             | 413-418  |
| 54 | Case Study: Empowering Corporate Governance ?n Healthcare Bpos With Explainable AI ?n Bangalore, India                                                                   | DR. Shyam Shukla., Shreedhar Deshmukh                                                                                                                  | 419-425  |

| SN  | Title                                                                                                                                                                                            | Authors                                                                                                       | Page No.  |
|-----|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------|-----------|
| 110 | Applications, Awareness and Assessment of Artificial Intelligence in Central Library of Banaras Hindu University to Enhancing Smart Library towards Automated Library Systems: A study of Users' | Santosh Kumar Kannaujia, Dr. Madhu Patel                                                                      | 923-932   |
| 111 | Agricultural Financing Awareness and Access to Microfinance Credit as Determinants of Financial Challenges Among Agricultural Entrepreneurs: A Systematic Literature Review Using Prisma.        | Professor Archee B. Garcia                                                                                    | 933-942   |
| 112 | b - Generalized Pre-Closed Sets in Topological Spaces                                                                                                                                            | M. Andal, V. Thiripurasundari                                                                                 | 943-947   |
| 113 | Effectiveness of Random Forest Classifier in Food Adulteration Detection                                                                                                                         | Vijila Kasthuri J, V. Narayani                                                                                | 948-956   |
| 114 | Design and Implementation of a Real-Time, Multi-Strategy AI-Powered Web-Based Strategy Game.                                                                                                     | Yash Chaudhari, Satyveer Chauhan, Kartikey Aggarwal, Dr. Sangeeta Mishra                                      | 957-962   |
| 115 | Integrating Machine Learning into Instrumentation and Control Systems: A Pathway to Predictive and Autonomous Automation                                                                         | Anthony C.N. Igwebuike                                                                                        | 963-970   |
| 116 | ?Assessing the Relationship between Financial Technology (FinTech) Implementation and Financial Performance: Evidence from NSE-Listed Banks in India?                                            | Mr. Shamantha Kumar B. U., Dr. Devananda H. M., Dr. Prakash Rao K. S.                                         | 971-979   |
| 117 | Factors Promoting Utilisation of Climate-Smart Agricultural Practices in Northern Ghana                                                                                                          | Seidu Nanundow, Hudu Zakaria, Osman Tahidu Damba, Samuel Allotey                                              | 980-991   |
| 118 | Assessment of <sup>39</sup> K, <sup>232</sup> Th, and <sup>238</sup> U isotopes in soil samples with ICP-MS in El-Obied, Sudan                                                                   | Abdelrazig M. Abdelbagi, Amar Belly, Abdelaziz A.M. El Shokali, Ahmed Elfaki                                  | 992-996   |
| 119 | Heavy Metals Contamination and Ecological Risk Assessment in Illicit Mined Soils at Noyem and Nyafoman in the Birim North                                                                        | Williams Ampadu Oduro, Eunice Eduful                                                                          | 997-1007  |
| 120 | Effect of Financial Inclusion on the Performance of Small and Medium Scale Enterprises in Ondo State                                                                                             | Oluwasesin, Olayemi Deborah                                                                                   | 1008-1015 |
| 121 | Production and Export Pattern of Jute in The Early 21st Century of Bangladesh                                                                                                                    | Dr. Mst. Tasqurun Nessa, Md Shahidul Islam                                                                    | 1016-1023 |
| 122 | Voltage Stability Assessment Techniques for Enhancing Power System Stability                                                                                                                     | Vikas Sharma, Sanjay Kannaujiya, Arvind Kumar, Sharad Kumar                                                   | 1024-1031 |
| 123 | Analyzing Technological Power Dynamics and the Evolution of Major Powers in the Global System                                                                                                    | Vikas Sharma, Ramlalit Prasad, Arvind Kumar, Sharad Kumar                                                     | 1032-1038 |
| 124 | An Analysis Comparing the Liquidity of Selected Indian Information Technology Industries                                                                                                         | Dr. Anand G Jumle, Dr. Anjali Kalkar                                                                          | 1039-1045 |
| 125 | A Review Towards a Standardized Approach in Building Structure Inspection for Maintenance Management                                                                                             | Mohamad Haszirul Mohd Hashim, Norliyati Binti Mohd Amin, Nurul Hakimah Binti Abdullah, Nurul Izza Abdul Ghani | 1046-1052 |
| 126 | Gender-Based Obstacles in the Accounting Profession: A Study of Women's Experiences in Bangladesh                                                                                                | Ishrat Sharmin Lisa, Md. Nasir Uddin, Md. Jalilur Rahman Khan, Noor Jahan Shimu, Md. Amir Hushen              | 1053-1061 |
| 127 | Applying Project Evaluation and Review Techniques (PERT) And Critical Path Method (CPM) In Network Analysis (Evidence from The Building Practice Ltd at Badagry Local Government, Lagos)         | Ilo Hammed Owolabi                                                                                            | 1062-1069 |

| SN  | Title                                                                                                                                                                   | Authors                                                                                                                            | Page No.  |
|-----|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|-----------|
| 145 | Emerging Trends in Oral Thin and Buccal Films                                                                                                                           | Megha Jadhav, Dr. Amol Kumbhar, Dr. Rupali Asawale, Prasad Shinde, Shravani Phuge, Snehal Ghorpade, Gayatri Kadage, Vedant Sarnaik | 1239-1245 |
| 146 | Development of Autonomous Agricultural Vehicle as New Trends of Agricultural Robotics                                                                                   | Punit Kumar Chaubey, Umakant Singh, Sanjeev Kumar Pathak                                                                           | 1246-1257 |
| 147 | ?Facets of Beauty: Evidence-Based Guidelines for Porcelain Veneers in the Anterior Esthetic Zone?                                                                       | Dr R Sumukh Bharadwaj                                                                                                              | 1258-1265 |
| 148 | The Role of Social Media in Shaping Public Opinion: A Comprehensive Literature Review.                                                                                  | Mr. Keyurkumar Modi, Dr. Vatsal B. Patel                                                                                           | 1266-1271 |
| 149 | Economic and War Crimes Courts Could Deepen National Security, Peace and Development in Liberia                                                                         | Prof Thomas Kaydor, Jr.                                                                                                            | 1272-1278 |
| 150 | Magneto-Radiative Interactions on Boundary Layer Development: Heat Transfer and Skin Friction Analysis                                                                  | Shehzad Ali, P. K. Shukla                                                                                                          | 1279-1285 |
| 151 | Effect of AI-Driven Technological Integration on The Performance of Micro Enterprises in Osun State, Nigeria                                                            | Alabi Ezekiel, Kosile Betty Adejoke, Ajayi Samuel Oluwaseun                                                                        | 1286-1292 |
| 152 | Effect of Organisational Culture on Employee Performance Among Non-Academic Staff of Public Universities in South-West Nigeria                                          | Alabi Ezekiel, Olatunji Olanrewaju Patrick, Olaoye Bosede Olubusayo                                                                | 1293-1299 |
| 153 | Machine Learning-Assisted Monitoring and Damping Control of Low-Frequency Oscillations in Power Systems                                                                 | Vikas Sharma, Rohit Choudhary, Arvind Kumar, Sharad Kumar                                                                          | 1300-1306 |
| 154 | De-Obfuscating Emerging Malware Threats Using Reverse Engineering Techniques                                                                                            | Okeke Ndubuisi Samuel, Ebele Onyedinma, Ikedilo Obiora                                                                             | 1307-1312 |
| 155 | Dynamic Privacy-Aware Routing (DyPAR) for Wireless Sensor                                                                                                               | Roland Yaw Kudozia                                                                                                                 | 1313-1343 |
| 156 | A Computational Study of Hemodynamic Resistance in a Symmetrical Arterial Stenosis Under Magnetic Influence                                                             | Tejpal Singh, P. K. Shukla                                                                                                         | 1344-1350 |
| 157 | Advancements in Artificial Intelligence for Real-World Problem Solving: Foundations, Methods, and Applications                                                          | Meera DC                                                                                                                           | 1351-1353 |
| 158 | Rigorous Thought Rewires Behaviour: A Neuroplastic Mutation                                                                                                             | Amrita Priyam                                                                                                                      | 1354-1356 |
| 159 | Reframing Educational Governance and Administration through Institutional Theory: A Systematic Review of Policy Enactment                                               | Edelyn C. Quirino, MS MATH ED, Janeta P. Palao, MS MATH ED, Gladys S. Escarlos, PhD                                                | 1357-1372 |
| 160 | From Mindset to Mastery: The Attitude?Ability Nexus in Re-Shaping Talent                                                                                                | Dr. Mintu Gogoi                                                                                                                    | 1373-1379 |
| 161 | A Robust Multi-Modal Biometric Recognition System Using Iris, Fingerprint and Palmpoint based on Cuckoo Search Algorithm                                                | Dr. P. Aruna Kumari                                                                                                                | 1380-1396 |
| 162 | ? MedConnect: A Comprehensive Web-Based Platform Revolutionizing Healthcare Access and Management                                                                       | Vedant U. Nehe, Prof Sunil Sable, Prof Rahul Waikar, Omkar S. Katare, Samarth S. Mahajan, Keya J. Rachh                            | 1397-1404 |
| 163 | Deep Learning Techniques for Hindi Automatic Speech Recognition: A Comprehensive Survey                                                                                 | Hetal Gaudani, Narendra M Patel                                                                                                    | 1405-1415 |
| 164 | A Study into The Analysis of The Discrepancy in Skills Among IT Professionals and Its Effect on Company Performance, With A Specific Focus on Info-Park, Kochi, Kerala. | Jishin George Oommen, Dr M Manimekalai                                                                                             | 1416-1424 |
| 165 | Empowering Women Artisans in Assam: Craft Heritage, Community Development, and Tourism Strategies                                                                       | Manish Singh Dhakad, Shikha Dhakad                                                                                                 | 1425-1430 |
